(for Hazardous waste going to Perm-Fix)

(for waste going to ChemNuclear, Barnwell, SC)

DRUM #	SIZE	TYPE OF WASTE	ISOTOPE	ACTIVITY (mCi)	WEIGHT (if known)	SCINTILLATION COCKTAIL

**WASTE CODES:**

- |   |   |                                  |
|---|---|----------------------------------|
| 1. Deregulated vials (Hazardous cocktail)     | 5. Radioactive vials (Hazardous cocktail)     | 10. Bactec Vials                 |
| 2. Deregulated vials (biodegradable cocktail) | 6. Radioactive vials (Biodegradable cocktail) | 11. Dry Solid waste (>120 T1/2)  |
| 3. Deregulated bulk (Hazardous cocktail)      | 7. Radioactive bulk (Hazardous cocktail)      | 12. Decay-in-Storage (<120 T1/2) |
| 4. Deregulated bulk (biodegradable cocktail)  | 8. Radioactive bulk (Biodegradable cocktail)  | 13. Biological (Carcass)         |
|   | 9. Beta Plates                                | 14. Biological (non-carcass)     |

NOTE: Please specify waste by using a code number. Also please be careful in choosing your waste codes. Your manifest and billing will be based upon the highest category code that is used. Specify cocktail used (i.e. toluene, xylene, Optifluor, ReadSafe) to ensure proper paperwork is used.

**DO YOU NEED SUPPLIES OR REPLACEMENTS? \_\_\_\_\_ YES (ATTACH LIST) \_\_\_\_\_ NO**
